

Buenos Aires, September 13th, 2020

Dear friends,

In 2020 the Argentine group continued with the organization of the Colloquium that was going to be held in Buenos Aires. We got in touch with the rapporteur and we are studying in depth the topics of the future Congress. In March, due to the Pandemic, social activities were suspended, we had to start working, participating in academic activities and teaching classes from our homes, in addition to taking care of housework. For this reason, we proposed to hold the Colloquium remotely, but it hasn't been decided yet.

We sent comments about the projects of the questionnaires of the four colloquia.

We are waiting for the resumption of face-to-face activities or more conditions to carry out virtually the Buenos Aires colloquium.

We also had to cancel a seminar that we had planned to do in the middle of the year with the Spanish group in Buenos Aires.

We had talks with the Brazilian group to hold a virtual seminar, at the end of this year or at the beginning of the following.

We assume that until the vaccine appears we are not going to be able to do the activities we had programmed or that we will have to hold them virtually. That's all.

Best Regards

Javier A. De Luca
Argentine Group
